FILET
OH!
FISH
IN THE TROUBLED WATERS
OF THE FISH INDUSTRY
A THRILLING WORLDWIDE INVESTIGATION OF ONE OF THE WORLD'S MOST SECRET INDUSTRY

EVERYBODY AGREES THAT FISH IS HEALTHY. IN 40 YEARS, ITS GLOBAL CONSUMPTION HAS DOUBLED. EACH YEAR, THE MARKET NEEDS TO FIND MORE FISHES AND NEW WAYS OF PRODUCTION. WHERE DOES THE FISH OF OUR DAILY SUSHI COME FROM? HOW IS IT FED? IN WHICH WATER DOES IT LIVE? A DRAMATIC INVESTIGATION ABOUT HEALTHY FOOD... OR MAYBE NOT?

Exclusive footage of farms and factories from all over the world will describe the global process of fish production: from overfishing to chemical and genetic manipulation, the controversies are raising. PCB, mercury, chromium, pesticides, ethoxyquin... through intensive farming and global pollution, the flesh of the fish we eat has turned into a deadly chemical cocktail.
